REQUEST.

## PROFILE

I'm a Full-Stack Developer and Creative Engineer with over 3 years of experience in web and mobile solutions across various industries. My work combines technical precision and creativity, focusing on React, React Native, and modern JavaScript/TypeScript for frontend development. For the backend, I specialize in Node.js and PHP/Laravel. I enjoy taking ideas from concept to launch, solving complex problems, and continuously enhancing my skills to tackle evolving tech challenges.

## WORK EXPERIENCE

### Nestlé, Sagamu, Ogun State, Nigeria.

**IT Attendant** FEB 2025 - DATE

- Engaged in IT support and system maintenance at Nestlé, addressing technical issues and optimizing operations.
- Provided effective technical support for IT systems, resolving issues promptly to minimize downtime.
- Maintained and monitored enterprise systems, ensuring operational efficiency and reliability.
- Assisted in the implementation of new technologies, enhancing the overall IT infrastructure.
- Trained end-users on software applications and IT best practices, improving user competency and satisfaction.
- Documented technical procedures and system configurations, contributing to knowledge management within the team.

### W3Pets (Remote)

**Frontend Developer** JUN 2025 - DATE

- Performed development tasks at W3Pets, delivering user-friendly web solutions.
- Designed and implemented responsive web interfaces using modern frameworks, enhancing user experience.
- Collaborated with cross-functional teams to gather requirements and translate them into functional designs.
- Optimized application performance by refining code and improving load times, resulting in faster access for users.
- Executed quality assurance testing to identify and rectify bugs, ensuring a smooth user experience.
- Maintained documentation for website features and updates, supporting ongoing development and team alignment.
